

Question Paper: Data Structures

Q1. What is an Array? (Max Marks: 10)

Ans.

An array is a linear data structure that stores elements in contiguous memory locations.

Q2. Explain Stack. (Max Marks: 10)

Ans.

Stack follows LIFO principle and supports

push and pop operations.

Q3. What is a Queue? (Max Marks: 10)

Ans.

Queue follows FIFO principle and is used in scheduling.
